

# Establishing U.S. Global Leadership in GenAI

- ① **Develop and implement “Platforms Statecraft” as an integrated, strategic effort, in concert with U.S. allies and partners, to build out the global technology platforms that underpin advantage in GenAI and other strategic technologies**
- ② **Adopt new tools to capitalize on the transformative power GenAI can unlock to ensure the Department of State remains at the cutting-edge in leveraging technology to execute and achieve its mission**
- ③ **Design and organize multiple layers of international regimes, institutions, and dialogues**

1

Mission & Competition

Jointness of Effort

Modernization

Sub-National Diplomacy

3

## A Global AI Security Forum

Working with capable actors to manage the highest consequence risks

## U.S.-PRC Dialogues

Incorporating GenAI as an agenda item in bilateral discussions

## A Like-Minded Forum

Cooperating with partners to advance a new DemTech Vision

2

Centralized GenAI Infrastructure

Designated authority or office to ensure safe GenAI usage

Tailored GenAI System

Build LLMs designed for the State Department

Training

Policy makers trained to understand and utilize GenAI
